

M46KD - monoshock

M46KD

Hydraulic monoshock with inside pressurized expansion tank (Nitrogen gas N₂).

Monoshock cylinder in Aluminium alloy Al 7075 with lapping and oxidation surface treatment.

High tensile alloy steel piston rod with hard chrome surface coating.

Rebound adjustment.

Adjustable wheelbase (not available for all applications).

Separate (flex) or incorporated hydraulic spring preloading systems available on request.

Pressurization valve (Nitrogen gas N₂)

Flex hydraulic spring preload

Incorporated hydraulic spring preload
